

THE FUTURE IS ARRIVING.

Is Tumbarumba Ready?

A free community talk on AI, work, and what’s coming next for the Tumbarumba region.

Whether you love technology or distrust it, the changes reshaping work, business and everyday life don’t wait for anyone’s opinion. The gap between what’s actually happening and what most people understand is enormous — and it’s growing. This is an honest community conversation — no jargon, no doom — with time for your questions.
